

Smarter solutions to help you reopen with confidence

Welcome your employees back to work powered by Lenovo and Windows 11 Pro

ThinkPad X1 Carbon

No one wants to go back to “business as usual”

Amid the shift to remote working, employees have experienced many positive benefits to working from home – including an increase in job satisfaction and productivity.

There is now no going back to the status quo. Moving forward, 60% of employees want to work from home at least half the time, according to the Lenovo Future of Work and Digital Transformation study*.

Engineering the workplace of the future

Despite the preference for flexible working, employees miss personal face-to-face connections. The role of office has become one to support socialization, relationships and collaboration. To attract and retain talent, unleash creativity and collaboration, businesses need to meet these needs. Lenovo’s portfolio of Workplace Solutions is designed to help you create the smart office of the future for your hybrid workforce.

Creating the smart office of the future is easy with Lenovo and Microsoft. Comprising a full suite of trusted services and smarter technologies including Windows 11 Pro devices, Lenovo Workplace Solutions deliver a safe, flexible, and personalized working experience by enabling:

Greater peace of mind

Save time and effort with turnkey solutions that eliminate the problems of managing multiple vendors and point solutions

Enhanced employee engagement

Improve employee satisfaction by providing them with a safe, productive, and secure working experience

Seamless management

Streamline IT workflows with monitoring, maintenance, and services for all Lenovo Workplace Solutions throughout their life cycles

Improved Safety

From smart access and enhanced communications, protect your flexible workforce that works from office and from home, as well as contractors

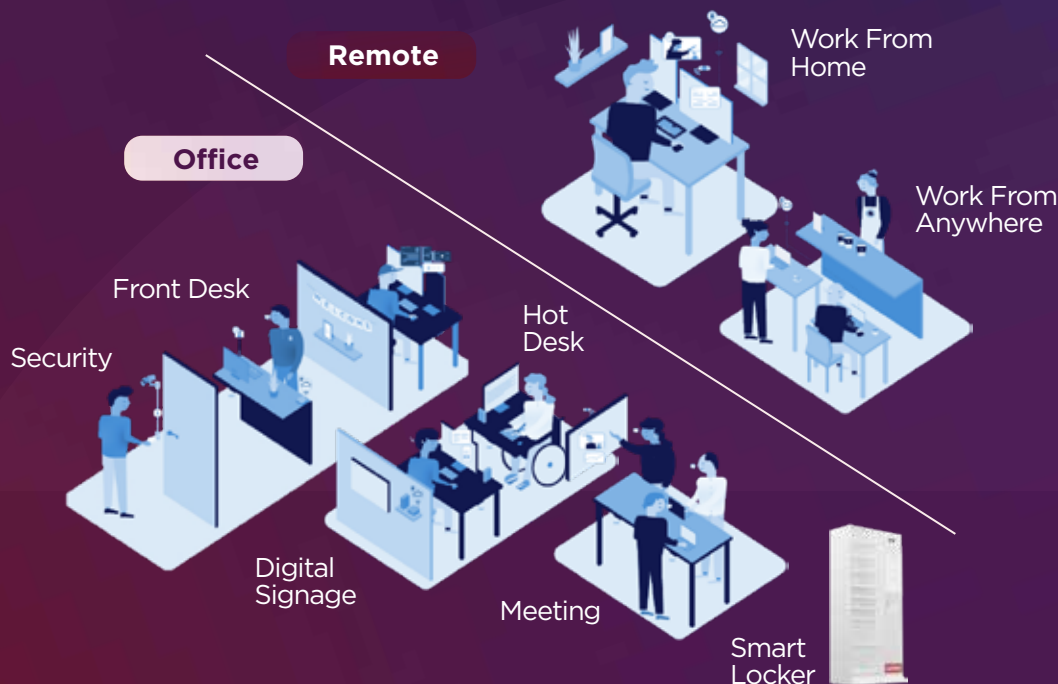

Rapid scalability

Roll out practical enterprise-wide solutions, quickly and consistently, with end-to-end implementation by Lenovo and Wafer Systems

Fast-track your smart workplace transformation with Lenovo Workplace Solutions

Unlock better employee experience for improved productivity and business innovation with our customizable suite of Lenovo Workplace Solutions that includes powerful and secure Windows 11 Pro devices.

Our turnkey approach makes enterprise-wide deployment simple, so that your smart workplace is up and running in no time.

Workplace Analytics

- Real-time dashboard enables practical space planning and optimization
- Provides insights and advice for commercial real estate professionals

- Optimize performance by connecting the right people with the right spaces
- Easily book workspaces from anywhere from any device, including Lenovo ThinkPad X1 series powered by Windows 11 Pro

Visitor Management

- Seamless experience of registration, access control, workspace booking
- Improved user experience and enhanced workplace security

Digital Signage

- Simplify content management and extend reach and availability of timely, accurate information
- Enhance communications across your enterprise easily with devices like Lenovo ThinkCentre M70q powered by Windows 11 Pro

Smart Collaboration

- All-in-one video conferencing solution optimized for Microsoft Teams
- Transform space of any size into connected collaborative meeting rooms

Smart Locker

- Smarter, reliable, and secure way to manage devices and office resources 24/7
- Agile experience for today's work-from-anywhere workforce demands

Improve control and flexibility with modern management by Windows 11 Pro

Transform your workplace to meet the needs of your people and environment while streamlining IT operations with Lenovo Workplace Solutions. From smart building access to self-service asset management, and improved communications powered by Windows 11 Pro devices, our portfolio of solutions are designed to simplify secure hybrid management.

Windows 11 works with cloud tools to help securely manage your hybrid workforce

Simplify and improve security management and workforce productivity across diverse locations

Cloud-first design enables easy extensibility with Microsoft 365, Microsoft Defender for Cloud, and Microsoft Defender for Endpoints.

Safeguard your business while supporting employees and their devices anywhere

Zero-touch device deployment and policy management to updates, secure single sign on, and secure remote help.

ThinkPad X1 Carbon

Easy to deploy, enterprise-wide

Together with our implementation partner Wafer Systems, Lenovo works closely with your teams to roll out solutions across your enterprise quickly and consistently.

Forget the problems of managing multiple vendors and point solutions. We handle the end-to-end process – from pre-installation site surveys to global support that can scale across locations. You also get to enjoy monitoring, maintenance, and service for our solutions throughout their lifecycles.
