SMARTER TECHNOLOGY FOR ALL

The world now stands at the cusp of a paradigm shift, as the hybrid workforce is set to dominate the future of work. New emerging technologies will help businesses transform and innovate to stay ahead, at the same time enabling the dispersed workforce to collaborate productively from remote locations.

Smarter technology is one with a purpose, that looks ahead and empowers others in achieving new possibilities. This is why Lenovo is all for creating technology innovation for everyone – so that they can pursue the new in their own Intelligent Transformations and eventually transform the world.

Spanning 180+ markets, with a portfolio of strong, diversified products and solutions offerings, Lenovo is well-positioned to lead Intelligent Transformation through Smarter Technology for All. Our vision is grounded on the principles of our 3S strategy: **Smart Internet of Things; Smart Infrastructure;** and **Smart Verticals** – with **Services as the glue that brings them together.**

Lenovo partners with companies to pursue new ways to solve customers' pain points. In particular, Microsoft Autopilot dramatically simplifies Lenovo's PC deployment, while Intel's Transparent Supply Chain guarantees the PC's integrity from manufacture to desk.

Pursue The New With Lenovo For A Smarter Way Forward

Enabling a Flexible Workforce

- We help organisations provide their workforce with the right tools to maximise productivity and collaboration while improving employee experience – no matter where they are.
- Our powerful, agile, reliable devices empower users get more done, with our wide range of **ThinkPad, ThinkBook** laptops, workstations, **ThinkCentre** desktops, tablets, smart collaboration, **ThinkVision** monitors, options and accessories.

Accelerating the Modern Workplace

- As organisations look for ways to accelerate modern workplace transformation, they need to adopt modern IT environments characterised by cloud-based resources to facilitate a work-from-anywhere model.
- Lenovo **Device-as-a-Service (DaaS)** offers lifecycle management, cost-savings and flexibility without compromising on productivity.
- We reduce the configuration, deployment and management tasks – so that you can focus on more strategic matters .

Future-Proofing for Business Continuity

- As organisations re-evaluate their business model for the new normal, our end-to-end technology solutions supported by Lenovo Services will help them future-proof their businesses.
- We help customers grasp the potential of emerging technologies such as **5G, AR/VR, AI** and **predictive analytics.**
- Our one-stop security platform Lenovo **ThinkShield** provides comprehensive security offerings across device protection, threat and data protection, and security management.

ThinkPad X & X1 Series

Professionals who expect the very best from their technology turn to the ThinkPad X1 line—not just for innovation and style, but for uncompromised performance. From ultralight laptops and 2-in-1s, to extreme power machines, to the world’s first foldable PC, X1s raise the bar. And with ThinkPad in their name, reliability and security are de rigueur.
