# SMARTER TECHNOLOGY FOR ALL

The world now stands at the cusp of a paradigm shift, as the hybrid workforce is set to dominate the future of work. New emerging technologies will help businesses transform and innovate to stay ahead, at the same time enabling the dispersed workforce to collaborate productively from remote locations.

Smarter technology is one with a purpose, that looks ahead and empowers others in achieving new possibilities. This is why Lenovo is all for creating technology innovation for everyone – so that they can pursue the new in their own Intelligent Transformations and eventually transform the world.

Spanning 180+ markets, with a portfolio of strong, diversified products and solutions offerings, Lenovo is well-positioned to lead Intelligent Transformation through Smarter Technology for All. Our vision is grounded on the principles of our 3S strategy: **Smart Internet of Things; Smart Infrastructure;** and **Smart Verticals** – with **Services as the glue that brings them together.**

Lenovo partners with companies to pursue new ways to solve customers' pain points. In particular, Microsoft Autopilot dramatically simplifies Lenovo's PC deployment, while Intel's Transparent Supply Chain guarantees the PC's integrity from manufacture to desk.

## Pursue The New With Lenovo For A Smarter Way Forward

### Enabling a Flexible Workforce

- We help organisations provide their workforce with the right tools to maximise productivity and collaboration while improving employee experience – no matter where they are.
- Our powerful, agile, reliable devices empower users get more done, with our wide range of **ThinkPad, ThinkBook** laptops, workstations, **ThinkCentre** desktops, tablets, smart collaboration, **ThinkVision** monitors, options and accessories.

### Accelerating the Modern Workplace

- As organisations look for ways to accelerate modern workplace transformation, they need to adopt modern IT environments characterised by cloud-based resources to facilitate a work-from-anywhere model.
- Lenovo **Device-as-a-Service (DaaS)** offers lifecycle management, cost-savings and flexibility without compromising on productivity.
- We reduce the configuration, deployment and management tasks – so that you can focus on more strategic matters .

### Future-Proofing for Business Continuity

- As organisations re-evaluate their business model for the new normal, our end-to-end technology solutions supported by Lenovo Services will help them future-proof their businesses.
- We help customers grasp the potential of emerging technologies such as **5G, AR/VR, AI** and **predictive analytics.**
- Our one-stop security platform Lenovo **ThinkShield** provides comprehensive security offerings across device protection, threat and data protection, and security management.

# ThinkSmart Collaboration

Purposeful solutions to address today's and tomorrow's conferencing needs, whether they are for personal use or for scalable meeting spaces. Take advantage of our expanding solutions portfolio with the addition of new accessories, updated management software and a platform-agnostic compute device with Intel Unite.

- ▶ ThinkSmart Hub
- ▶ ThinkSmart Edition Tiny
- ▶ ThinkSmart View Solution
- ▶ ThinkSmart Cam
- ▶ ThinkSmart Bar
- ▶ ThinkSmart Manager

# ThinkSmart Hub

Offers smarter collaboration technology for conference rooms of all sizes. This latest generation all-in-one Microsoft Teams Rooms system offers richer audio with full duplex speakers and dual array mics integrated in an even smaller, sleeker device.

- Participants can communicate via video, voice, or chat to collaborate about content in real time and its rotatable 10.1-inch touchscreen display makes it easy for members of the group to share control of the meeting.
- Features four built-in full duplex speakers and four built-in dual array mics for fully immersive 360-degree sound. Plus, it is ultra-low noise certified for even better acoustic design.
- One-touch meeting start makes it easy for any participant to initiate a Microsoft Teams voice or video conference without dial-in delays.

## ThinkSmart Edition Tiny Solution

Running focused, productive meetings is essential for collaborating in today's remote work environments. Avoid the disruptive hassles of latency, dropped connection, and clunky transitions between presenters.

- Connects across all major devices, operating systems, and displays, and connects easily to popular UC platforms like Skype for Business and Zoom.
- Remotely manageable and dedicated, this modular compute leverages the Intel® vPro® platform, fully encrypting all shared content with 256-bit SSL.
- Join meetings, share files, and switch presenters with a click. That means your team can focus on critical business issues without the distractions of meeting logistics.

Lenovo recommends Windows 10 Pro for business.

## ThinkSmart View Solution

A collaborative smart device that works from an individual's workspace, tackling administrative tasks that waste a PC's resources.

- Easy to deploy and maintain, and expertly engineered for reliable, always-on usage. Its intuitive touchscreen interface—with a one-touch Microsoft Teams meeting start—means no more dial-in delays.
- Use it to engage in voice or video calls without impacting the work in progress on your PC. You'll unlock richer content-centric meetings with the Microsoft Teams IP Phone app and enjoy clear audio in private settings with powerful built-in mics and speakers.

## ThinkSmart Cam

Creates immersive, productive spaces where everyone can be fully engaged and collaborative regardless of where they are located.

- USB 3.2 cable providing up to 4K HDR resolution at 30 frames per second (fps), or USB 2.0 with up to 1080p at 30fps.
- Camera field of view - 100 degrees horizontal, 68 degrees vertical and 125 degrees diagonal.
- Built in VPU (Vision Processing Unit) and Neural Network for AI conference meeting feature providing autozoom, auto framing, people counting, speaker tracking and whiteboard awareness.

▶ Read full specifications

## ThinkSmart Soundbar

Lightweight standalone premium sound bar with four built-in microphones for an immersive meeting room audio experience.

- Delivers up to 100dB sound through four speaker units rated at 20W+20W.
- Four microphone array with 180-degree coverage and includes two additional satellite microphones for a ten-meter range.
- Built-in digital signal processor for echo and noise-cancellation.
